

## Performance Task

I believe Tates Creek High School should improve the quantity of food that they give out to students at lunch. My reasons are, One kids need more food to energize them, Two kids in C or D lunch are really hungry, Three kids should get more food as growing kids. These are my three reasons why students should get more lunch at Tates Creek High School.

Kids need more food to energize them. This is important because kids will get tired at after school activities when not eating. For example I have A lunch, so I shouldn't be complaining but after school at football practice I'm starving. My teammates at football practice also are starving especially in freshmen team study hall we are all complaining how hungry we are. I'm starting to beg my parents to let me bring a lot of food to school with me.

Kids in C or D lunch are even more hungry during the day. This is important because kids are starving all day and might not be hardworking and focused when they're working. Some might say, "But the kids will not want to eat dinner when they get home because they are full of food." But I say a growing teenager will want to eat anything when they get home.

Kids should get more food as growing kids. This is important because some kids come home and eat all of the food, which makes them have to go out and get more food. I say, "Kids coming home will bug you about food because they're
